

Hinged Bails

Hinged bails make any pendant interchangeable. The secret is in the hidden hinge that allows you add or remove a pendant to suit your style. Attach your creation to the concealed ring and you're ready to clip it on your necklace.

Choose from three distinctive styles, Etched, Hammered and Crystal which is achieved with 3 tiny crystals you buy separately and glue-in.

Select from our assortment of Swarovski® crystal or use your own. Buy only what you need or keep several crystal colors and bails on hand so you can create whenever you're inspired.

Available in two nickel-free plated finishes: gold and rhodium.

crystals sold separately

side hinge open

side hinge closed

Generous sized opening allows you to clip on large chains, omegas, multiple strands of seedbeads, or between crystals or pearls.

Bail style:	Crystal Bail	Size: 16x6mm
Skill level:	easy	Strands: 1
Time approx:	5	Nickel-free plated finishes:
Crystals to glue:	3	• gold
		• rhodium

Crystals needed (foil, pointback):

QTY	SIZE	SHAPE	SWAROVSKI® STYLE #
1	pp10	round	1028
2	pp15	round	1028

Tools needed:

- jewelers tweezers (see helpful hints below)
- 2-part all purpose 5-minute epoxy, clear drying

How to:

- Mix glue per instructions. Apply small drop of glue to recessed bezel areas (not on crystal).
- Set in crystal and adjust to make sure crystal is level.

Helpful hints:

- Instead of tweezers, use a toothpick with a tiny bit of museum putty or natural bee's wax rolled on the tip. It will stick to the crystal so you can position it and releases easily.
- If you get glue on the crystals or clasp, dampen (squeeze out all excess) a Q-tip in isopropyl alcohol to remove. This only works if the glue has not set.
