

# Define your Design with Metal

Solutions for large hole beads

Lead-free pewter  
Made in the USA

**TierraCast**<sup>TM</sup>  
Quality in the Making

## How to Use: BeadAligners<sup>TM</sup>

Finally ~ it's simple to use large and small hole beads on the same stringing material!

TierraCast **BeadAligners**<sup>TM</sup> allow you to use small hole semi-precious stones and pearls right alongside your favorite large hole beads. These decorative findings eliminate the gaps and wobbles of mismatched hole sizes and make it easy to create perfectly aligned bead strands.

Free up your creativity and enjoy designing with a wider range of beads when using TierraCast **BeadAligners**<sup>TM</sup>.

## Materials:

### Necklace & Clasp

- Your assortment of beads
- Assorted caps & spacers
- 2 BeadAligners<sup>TM</sup> for every large hole bead used
- Clasp set
- Crimp beads
- Crimp covers
- Stringing material at desired length

- 1 Develop your bead pattern
- 2 Use **BeadAligners**<sup>TM</sup> as pictured to transition from large to small hole beads
- 3 Finish ends
